

Lip Enhancement

Creating the perfect lip requires great skill, a fine eye and attention to detail, it is an art! At Eterno Aesthetics Hannah specialises in Lip Augmentation and it is her most popular treatment.

WHY CHOOSE TO HAVE A LIP ENHANCEMENT?

Some of us naturally don't have the shape, volume or definition we desire in our lips. Whether it's that you feel your lips are thin and not as full or plump as you would like. It may be that you feel they are flat or poorly pronounced with little shape, particularly around the cupid's bow. You may feel like the top and bottom lip are out of proportion. As we get older our lips are one of the most vulnerable areas for ageing as the skin is so thin.

Over the years, due to the depletion of hyaluronic acid our lips start to lose their fullness and wrinkles start to appear on their surface. Our lips may start to droop at the corners and lines above the top of the lip begin to appear.

Hannah understands how this can affect your confidence as your lips are an area that gets regular attention. By adding small amounts of carefully placed hyaluronic acid, dermal filler Hannah can naturally enhance your lip giving you back that confidence.
